

Samia Serbouti

Fullstack Software Engineering Student @ KTH

✉ sa.serbouti@protonmail.com

🌐 sam8314

☎ +46769505802

📍 Stockholm SVE | Lille FRA

🎓 Education

International B.Sc. in Information and Communication Technology

KTH Royal Institute of Technology, TCOMK

Stockholm, Sweden

Coursework: Databases, Software Engineering, Data Structures, Algorithms, Computer Networks, Web Design, Intercultural Competences

First Year of Graduate Engineering School, Physics, Electronics and Telecommunication

Phelma INP École nationale supérieure de physique, électronique et matériaux, PET

Grenoble, France

Preparatory Classes for French Grandes Écoles

*Lycée Faidherbe, PCSI/PSI**

Lille, France

Baccalauréat of Science

Lycée Fénelon, Maths Major

Lille, France

Graduated with Highest Honors

🛠 Experience

Volunteer - Ecological Education & Software Development

Ökomobil Karlsruhe

11/2022 – 08/2023 | Karlsruhe, Germany

- Developed a 2D educational game in Python to teach wildlife conservation via GitHub
- Organized and led nature conservation tours for diverse age groups in German, English and French
- Assisted in planning and managing public events on ecological awareness

👥 Leadership

IN Chapter University Board

Board member, Chairperson, Committee for Equity, Diversity and Equal Conditions

2023 – 2024 | Stockholm, Sweden

- Led initiatives to promote inclusivity and equitable conditions within the ICT program
- Collaborated with faculty and students to implement policy and cultural improvements

📄 Personal Statement

Backend-focused software engineering student at KTH with hands-on experience in PostgreSQL, Python, and fullstack development. Strong foundation in database systems, algorithms, and software engineering. Actively improving skills in DevOps practices, data analysis, and security fundamentals, with a goal of contributing across the data-infrastructure-security stack in future roles.

🔗 Skills

Full-Stack Development — React, Redux, MobX, JS, HTML, CSS, REST APIS, Python, Java (Maven, Swing, Gradle), Unit testing, PostgreSQL

Data & ML Engineering — Algorithm Design, C, Multithreaded Programming (pthreads, OpenMP), Python (TensorFlow, Keras), Data Analysis and Visualization (Matplotlib, Python libraries)

Systems Programming — C, Assembly (MIPS/RISC-V), Linux, Bash, Computer Networking, Java Socket Programming

DevOps — CI/CD, Git (GitLab and GitHub), Docker

Tools — VS Code, pgAdmin4, DBeaver, npm, Astah Professional, Logisim, Matlab, GNU Octave, GIMP, LaTeX

📜 Certificates

PSC1 French First Aid Certificate (03/2023)

Class B License

💬 Languages

French: Native, **English:** Fluent, **German:** B1,

Swedish: Basic, **Arabic:** Basic

🎯 Interests

Agile & Scrum, Intercultural Collaboration, Cello, Bass and Piano, Astrophysics, Robotics, Environmental Education, Cycling and Bikepacking
